Dear Mr. Cloud:

This responds to your Freedom of Information Act (FOIA) request of August 8, 2019 in which you requested:

- Copies of all records, communications, and documents, including emails, that mention testing and sampling of wells, drinking water, groundwater and soil for the chemicals perfluorooctane sulfonate (PFOS) and perfluorooctanoic acid (PFOA) at and around former Naval Air Station Alameda in California, including records concerning results of such testing.
- Records of both on-base and off-base testing and results.

Your request was received by this office on September 5, 2019 and assigned Case File Number DON-NAVY-2019-010041.

The scope of your request was modified via our phone call on September 20, 2019 to the following:

- Referral to DON-NAVY-2019-000699 at FOIA online. As discussed, this publicly available FOIA response contains among other things, complete copies of the latest PFAS sampling reports issued by the Navy for the former Naval Air Station Alameda.
- Referral to the NAVFAC BRAC PMO webpage and specifically former Naval Air Station Alameda documents available for immediate download, including the Final September 2018 Finding of Suitability to Transfer Phase 3C document.

Pursuant to our phone conversation on September 20, the response to your narrowed request is considered complete and will be closed without further action. The fees associated with the processing of your request are waived in this instance.
